

A detailed photograph of a table setting. In the foreground, a white plate with a silver rim holds a neatly folded light blue napkin. The plate is surrounded by silverware: a fork to the left, a knife to the right, and a spoon above. A white napkin with a pattern of gold and silver stars is partially visible at the bottom. The background is filled with various silver and gold Christmas ornaments, including large reflective spheres and smaller textured ones. Several clear glassware items, including a water glass and a wine glass, are scattered around the table. The overall aesthetic is elegant and festive.

Serviettenfaltung STERN

Napkin folding STAR

1. Die ausgefaltete Dinner-Serviette liegt mit der unbedruckten Seite vor Ihnen. Nun das obere, sowie auch das untere Viertel zur Mittellinie falten. *Place the unfolded napkin in front of you with the printed side on the reverse. Fold the bottom half to the middle of the napkin and then do the same in reverse for the top half so you end up with a rectangle.*

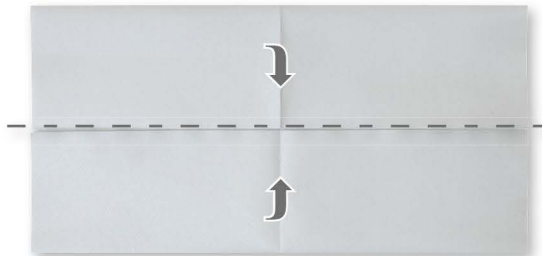

2. Die Serviette wenden und in vier gleichgroße Ziehharmonikafalten legen. *Next make a crease in the napkin by folding the left hand side to the middle and again, do the same for the right hand side so your rectangle shows each quarter clearly.*

3. Die Ziehharmonikafalten fest zusammendrücken und die Serviette so aufstellen, dass die vier geschlossenen Kanten der Ziehharmonikafalten nach oben zeigen. *Now fold down one of the short edges of the rectangle to the first crease and then flip over and fold again. Repeat this so that you have perfect accordion pleats and press firmly into shape.*

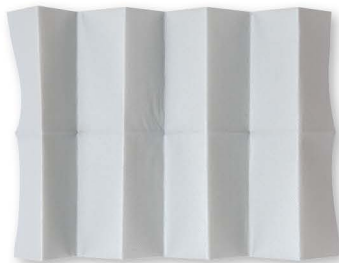

4. Nun die vier nach oben stehenden Ecken jeder Seite nach innen und unten falten. *With the open part at the bottom, place your finger in the middle of the napkin to keep its shape and then bring the top right hand corner of the first pleat down to the bottom of the napkin to form a triangle. Repeat the same for the top right hand corner of the second pleat. Repeat this exact procedure for the left hand side in reverse. Turn the napkin over and repeat the whole of the previous step.*

5. So entsteht die Zackenform. Den Stern in der Mitte fassen. Und nun die Zacken außen herum aufziehen. *To form the star shape, fold the top two sides flat together and do the same for the reverse. Secure with a paper-clip.*
